Engr. Marvin P. Tagolimot Jr.

Email | Github | LinkedIn | Sta. Ana Tagoloan Misamis Oriental

Summary

A Computer Engineer passionate about software and hardware development. Willing and eager to contribute to innovative projects and continuous learning.

Experience

Kaulix
Software Engineer

From October 2025 to Present

- Develop and maintain web applications using React.js.
- Build and manage backend services using Node.js and PostgreSQL.
- Develop and integrate AI agents into application workflows and systems.
- Utilize Microsoft Azure for cloud infrastructure, deployment, and related services.

SWEEP CDO Project
Project Technical Assistant I

From April 2025 to September 2025

- Developed DSS (Decision Support System) using Next JS, Typescript, Python Flask, Next Cloud, and SQL Database.
- Integrated GIS map for site selection using Leaflet React.
- Developed backend services to handle API endpoint requests to access ML models.
- Implemented a storage system using Next Cloud to store document files and models.

Seven365 Pte. Ltd.
Nuxt 3 & Node JS Remote Developer

From August 2024 to April 2025

- Developed and maintained web applications using Nuxt 3, Vue.js, Typescript, MongoDB, and Node.js.
- Implemented modular services and APIs, improving scalability and maintainability.
- Integrated backend services with databases and external APIs.
- Optimized application performance.

Contract-based Game Developer
Remote Godot Programmer

From May 2024 to Present

- Developing an interactive children's game.
- Designed a user-friendly interface that allows children to write stories.
- Implemented custom game mechanics, UI components, and animation.
- Optimized game performance.
- Integrated game network features.

Freelancer
Web, Android, and Embedded Systems

From 2021 to Present

- Fullstack Web Applications
- Flutter + Firebase Applications
- React JS + Firebase Applications
- Arduino Based Systems
- Raspberry Pi Based Systems
- Computer Vision

Education

Bachelor of Science in Computer Engineering from the University of Science and Technology of Southern Philippines
Graduated 2024

ICT TVL - Programming from Informatics Computer Institute Mindanao
Graduated 2020

Key skills

Next JS 15, Nuxt 3, Vue JS, HTML, CSS, JavaScript, Typescript, Laravel, ReactJS, Tailwind CSS, NodeJS, Firebase, Flutter, MongoDB, Python, Java, Unity C#, Godot, Nakama, Prisma JS, Tensorflow, YOLOv8, Cloudflare,
Linux Server Admin (Ubuntu), VPS Hosting (Hostinger, DigitalOcean)

Certifications

Object Oriented Programming in C++ · Udemy, Sep 2026
The Complete Full-Stack JavaScript Course · Udemy, Sep 2026
CCNA: Enterprise Networking, Security, and Automation · Cisco, Jun 2023
CCNA: Switching, Routing, and Wireless Essentials · Cisco, Mar 2023
CCNA: Introduction to Networks · Cisco, Feb 2023

Projects

HRMO Payroll System (Next JS, Prisma, MongoDB, Droplet (VPS)

- A system for managing employees, departments, DTR records, and the computations of their salaries.

QR & SMS Based Attendance Monitoring System (React, Firebase, NodeJS)

- A system for recording and monitoring student attendance using QR and SMS.

Barcode Inventory Management System (MERN Stack)

- An inventory and POS system for tracking and managing inventory stocks of a store using barcode technology.

GraveFinder (React, Firebase, NodeJS)

- A grave lot identification and reservation system. It also has features such as a grave locator and routing.

Smart Solid Waste Collector(React, Firebase, NodeJS)

- A web-based system to track garbage trucks' real-time location, manage barangay schedules, and notify users.

Agribusiness Network Integration App(Flutter, Firebase)

- A start-up project that aims to help farmer sell their produce online using an Android app.

Online Clinic Appointment App(Flutter, Strapi)

- An app to create an appointment to visit a doctor’s clinic.
- It has 3 types of users: Doctor, Nurse, and Patient.
- It has chat and chatbot features integrated.

Online Clinic Appointment Chatbot(Python, Flask)

- A customized intent to answer specific frequently asked questions of the patient.

Extracurricular

Institute of Computer Engineers of the Philippines Student Edition - USTP

- **Committee on Web Development (COMWEB) - Project Manager**
- **ICpEP Website - Frontend Developer**
